TUG '93; Call for papers
World Wide Window on TeX
14th Annual TeX Users Group Meeting July 26th – 29th, 1993

Aston University in Birmingham, UK, will be the venue for the 1993 TUG conference. Aston is the home of the 'Aston Archive', one of the largest collections of electronic TeX paraphernalia. This is the first time the annual meeting will have been held outside North America.

The location of the conference at one centre of the electronic web and its movement from North America encourages particular focus on the 'world-wide' aspects of TeX (LaTeX, METAFONT...). The marked rise in maturity of windowing systems (Macintosh, Atari, Amiga, Windows3, X windows) also allows us to exploit more straightforward and direct ways of employing the TeX tools. It is hoped that there will be a contribution to the conference from the Didot project, further extending the range of topics to include digital typography and font creation.

The conference will feature the regular paper presentations, but workshops, poster displays, courses, panels and 'birds of a feather' sessions will be integral components.

Contributions are being actively sought in the following subject areas: ◇ archives ◇ electronic networks ◇ formatting structured documents ◇ LaTeX3 ◇ graphical user interfaces to TeXware ◇ non-english issues ◇ non-Latin scripts ◇ digital typography ◇ editing structured documents ◇ styles ◇ other typesetting systems ◇ document views ◇
